## Continuation Sheet (PTOL-303)

Application No. 09/823, 322

## Continuation of Item 3.d. NOTE:

The proposed amendments to claims 11 and 22 would introduce the substantive change of limiting evaluation of drug specificity to a cell. Further, the proposed amendment to claim 22 would introduce the substantive change of limiting the claimed method for evaluating drug specificity to methods steps drawn to "determining" the activity of a drug. Additionally, newly added claims 75 and 76 each recite new limitations that have not been previously presented. If entered, amended claims 11 and 22 and newly presented claims 75 and 76 would require further consideration and search.

## Continuation of Item 11. NOTE:

The rejections in the previous Office action mailed 12/28/2005 are maintained for reasons of record. Claims 11 and 22 are rejected under 35 USC 102(b) and 102(e)(2) as being anticipated by Goldenberg.

Applicants arguments are directed to amendments to the instant claims which have not been entered onto the record. If the after final amendment submitted by applicants was entered, the amendments to the instant claims would be sufficient to overcome the prior art rejection over Goldenberg, as Goldenberg does not fairly teach or suggest the disclosed application of evaluating drug specificity in a cell.
